

We design safe and stylish solutions for our customers to enhance the value of their technologies.

We like to add a personal touch to your machines with tailored solutions that will make them look attractive in a competitive large-scale market.

We are also a leader in the production of mechanical details, parts of machines and industrial plants.

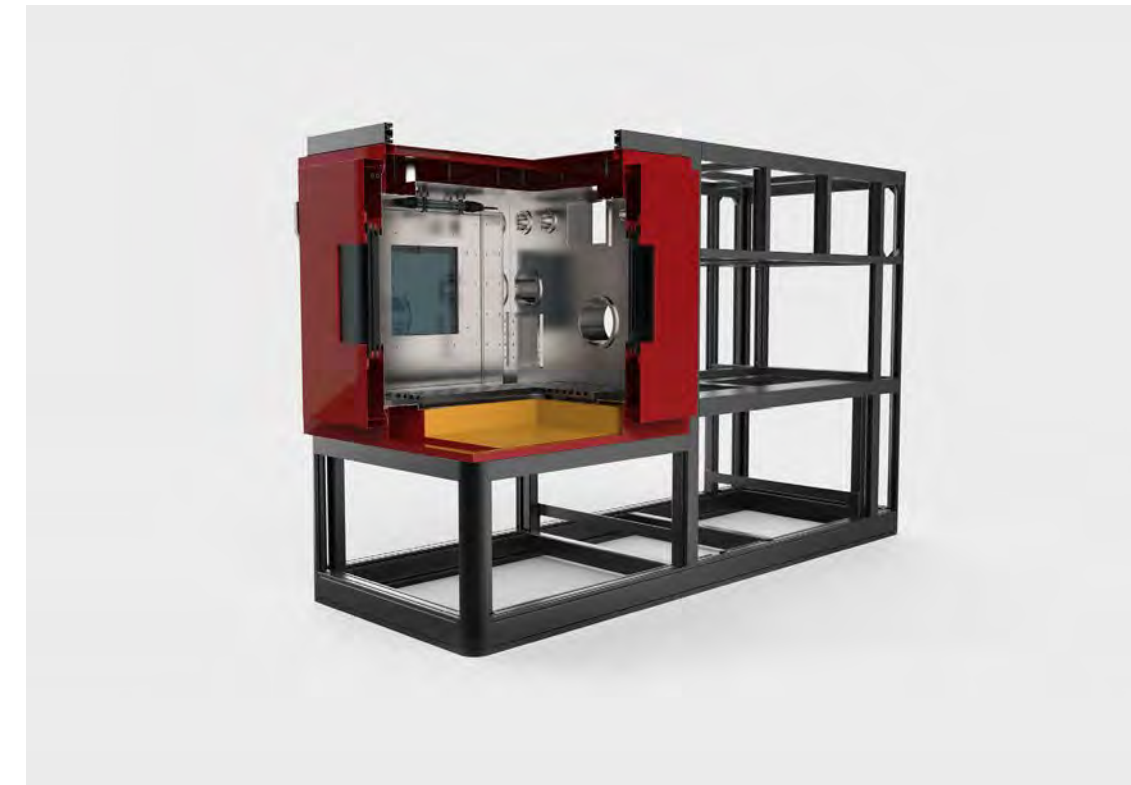

Solutions

Alongside mechanical constructions, we also provide commercial accessories such as gaskets, sliding elements, hinges, servo pneumatic systems, safety micro-switches, handles and any other parts to complete the required functions.

design and production

High-safety protection

Large, complex guards

Prototypes and series

Certified metalwork

Finished machinery

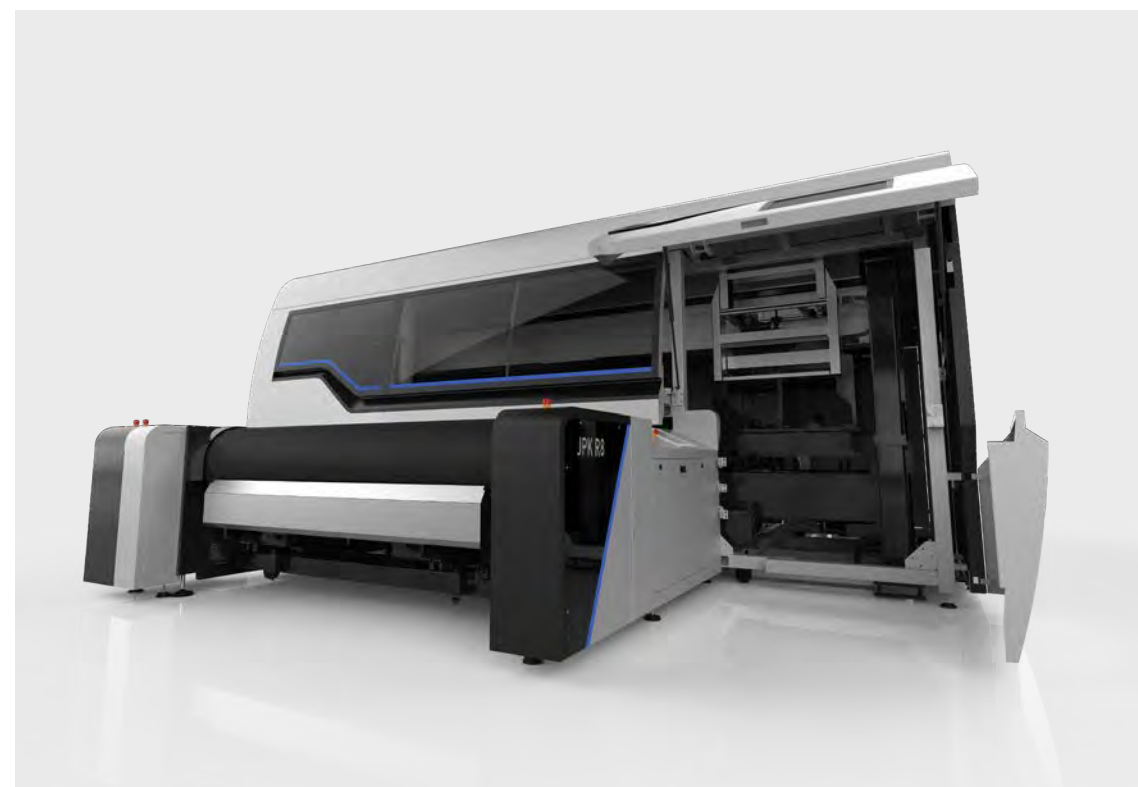

Precision metalwork

Advanced assembly/additional services

Custom design

Planning and design-to-cost
